

Outstanding performance

EPCOS receives China Supplier Award from Bosch Rexroth

December 7, 2017

TDK Corporation announces that its subsidiary, EPCOS Limited in China, has received the China Supplier Award 2017 as the only manufacturer of electronic components from Bosch Rexroth. The award was presented in recognition of outstanding performance in terms of product quality, delivery performance and positive collaboration on the development of new products and technologies. Bosch Rexroth had already given a prize to the company in 2014.

The Bosch Rexroth plant in Xi'an, northern China, sources a broad range of EPCOS products. These include aluminum electrolytic capacitors, which are used in the DC link circuits of frequency converters for industrial drive systems and factory automation systems. The spectrum of products shipped also includes EMC filters, film capacitors, varistors and ferrites. Bosch Rexroth is a world leader in drive, motion and control technologies for automated manufacturing systems.

About TDK Corporation

TDK Corporation is a leading electronics company based in Tokyo, Japan. It was established in 1935 to commercialize ferrite, a key material in electronic and magnetic products. TDK's portfolio includes passive components, such as ceramic, aluminum electrolytic and film capacitors, ferrites and inductors, high-frequency products, and piezo and protection components, as well as sensors and sensor systems and power supplies. These products are marketed under the product brands TDK, EPCOS, InvenSense, Micronas, Tronics and TDK-Lambda. TDK's further main product groups include magnetic application products, energy devices, and flash memory application devices. TDK focuses on demanding markets in the areas of information and communication technology and automotive, industrial and consumer electronics. The company has a network of design and manufacturing locations and sales offices in Asia, Europe, and in North and South America. In fiscal 2017, TDK posted total sales of USD 10.5 billion and employed about 100,000 people worldwide.
